FRIDAY, Dec. 22-6 P. M. The stock market to-day was rather shaky. Quotations for the fancies were very un estiled, and the movement was unce tain and irregular. At the first beard Virginia 6's fall off 1 per cent, Missouri 6's 1, Nicaragua Transit ; Cumberland ; Erie Railroad ; Hudson River Railroad 1; Erie Income bonds sdvanced | per cent, Harlem 1, Norwich and Worcester 1, Reading Railroad 1. Railroad bonds were sold to a large extent, at priors current at the board yesterday. Erie bonds have come out pretty freely lately, and the probability is that the incomes will be more active as the time fixed for opening bids to the new loan approaches. The market continues to be pretty liberally supplied with Illinois Central Bonds, and a good many speculative purchases are made. The rapid rise in Hudson River Railroad stock has met with a pretty severe check. The advance, upon the strength of a temporary postponement of the floating debt, was too great, and was therefore short lived. The improvement enabled those who realised to secure a handsome profit. The report given in our columns to-day, of a scene between the Treasurer of the New York Central Railroad Commany and same of the most prominent state. read Company and some of the most prominent stock holders, created some excitement, and must open the eyes of those interested to the fact that sooner or later there must be a break down in the finances of that company that will exceed that of the Eric or any of the Vermont roads. There is more rottenness in that concern than stockholders generally dream of. It is for the interest of the management to keep all knowledge and information from the shareholders, and the facts will only leak out gradually previous and the facts will only leak out gradually previous to a general explosion and acknowledgment of bank-ruptcy. Harlem appears to be moving slowly but steadily upward. There is a strong clique in Wall street opposed to the present management of the Harlem, who are engaged in bearing the stock, and by their operations they keep the market value at a lower figure than would otherwise rule.

After the adjournment of the board the following ales of bon is and stocks were made at auction by

| Simeon Draper:—| Simon Simon

At the second board the market opened and closed beavy. Erie Income Bonds fell off ! per cent; Nicaragua Transit, ;; New York Central Railroad, ;; Erie Railroad, ;; Hudson Railroad, ;. Later news from Europe is anxiously looked for. Several steamers are overdue, with more than seven days later

The receipts at the office of the Assistant Treasurer of this port to-day amounted to \$60,336; payments, \$81,269 50; paid for Assay Office, \$1,418 72balance, \$3.614.806 04.

The Bank of America has declared a semi-annual dividend of four per cent. The East River Savings Bank has declared a dividend at the rate of five per cent per annum, psyable January 15, on all sums of five hundred dollars or under, and at the rate of four per cent per annum on larger sums. The Boston and Worcester Railroad Company three per cent. The Union Bank of Rochester five per cent. The State Bank of Troy four per cent.

Another New England railroad company has been added to the long list of dividend delinquents this year. The Boston and Lowell, one of the oldest, and for a long time considered one of the best railroad companies in Massachusetts, has been com-

pelled to pass its January dividend. The warrants entered at the Treasury Department, Washington, on the 20th inst., were as

follows :		
For the redemption of stock	41,954	15
For the payment of Treasury debts	10,997	92
For the Customs	11,940	
Covering into Treasury from misc. sources		50
For the War Department	2,522	
For the Navy Department	18,677	40
For the Interior Department	5,555	10
For repaying in the Interior Department	175	54
The St. Louis Republican of the 19th ins	L says:	-

We understand that the funds for the payment of the first year's subscription to the Pacific Hallroad, authorized by the people to be collected from them, are in the hands of the President of the Company, who will himself visit the East, and retire the bonds issued in anticipation of the collection of this tax. The amount is \$300,000, and will be in New York before it is due. This will be exceedingly gratifying information to the friends of the road, and to those who advocated the levy of this tax to aid in the prosecution of the work.

1882 to 1842		8,953,798 9,481,382

According to this table, the amount of specie imports over experts under high tariffs, since 1820, has been \$6,818,883, while the specie imports over experts under low tariffs, since 1820, amount to \$57,226,565. The importation of specie in 1843 should, in justice, be included in the calculation under the low tariff, for the protective tariff adop-ted in 1842 had not, in 1843, been long enough in operation to produce any visible effect on our com-mercial system. The importation of specie in 1847 may be claimed with equal justice by the pro-tectionists as the effect of the high tariff in operacottenists as the effect of the high tarm in operation up to the close of the previous year; but as we income a vigor and steady prosperity which nothing but indiscretion and extravagance can ever afterwards in the remotest degree upon the tariff, depend in the remotest degree upon the tarif, whether high or low, we are willing they should have the full benefit of all they can make out of

ent of the usual course of trade. Californ a has been a large consumer of foreign manufactures, the consumption coming up so suddenly and being carried at once so far beyond our usual means of payment, that the staple product of that State was the only source of liquidation, and for a time it became as much a staple export as cotton or corn from the Atlantic ports of the country. The shipments of specie have therefore been carried to an artificial, unnatural extest, and it may be some years before it will be confined to the legitimate operations of commerce. The table given above we prepared for the purpose of showing that low tariffs have not quite rained the country. Under sixteen years of low tariffs we imported upwards of eighty millions of specie, and exported only about twenty-three millions; while under ten years of high tariffs, we imported only twenty-two and a half millions of specie, and exported about sixteen millions.

specie, and exported about sixteen millions.

The National Intelligencer gives the annexed abstract of the provisions of the bill to suppress the circulation of small notes in the District of Columbia, which has finally passed both houses of Congress, and will become a law as soon as it receives the signature of the President:—

grees, and will become a law as soon as it receives the signature of the President:—

The bill enacts that from and after the first day of November next, no "person or persons, body politic or corporate, within the District of Columbia, shall make, emit, issue, utter, sign, draw, or endorse any bank note, promissory note, or any instrument of writing, for the payment or delivery of money, or other valuable thing, of a less amount than five dollars, to be used as a paper currency, or as a circulating medium, either as money or in lieu of money or of any other currency:" and that every person, and every member, officer, or agent of any body, politic or corporate, so offending, shall forfeit and pay the sum of ten dollars for each and every offence, one half to the use of any person who shall sue therefor, and the other half to the county.

The bill also makes it unlawful for any person or persons, body politic or corporate, to pass, or offer to pass, within the District of Columbia any bank note, or any instrument in writing of a less denomination or amount than five dollars either as money or in lieu of money or of any other currency, and any and every person so offending shall forfeit and pay a sum not less than live nor more than ten dollars for every such offence; one half to the use of the person who shall sue therefor, and the other half to the use of the county.

Other provisions of the bill impose further penalties for a violation of the law. In every case where any person or body corporate shall reduce to redeem such issues in gold and silver on presentation, a fine of \$20 is imposed; all contracts founded upon a small note currency are illegal and void; and a mode is prescribed for forfeiting the license of any merchant or trader who shall receive or circulate notes under the denomination of five dollars.

The District of Columbia is no longer neutral

The District of Columbia is no longer neutral ground for shinplaster financiers, driven out of Maryland and Virginia by the small bill law of those Maryland and Virginia by the small bill law of those States, to establish their banks upon. It is with pleasure we notice the adoption in State after State of the bill prohibiting the circulation of bills under the denomination of five dollars, and we trust it will receive, during the present winter, the attention of Legislatures of States where the paper currency has become ruinously depreciated by the numerous bank failures of the past three months. Nothing strikes so directly at the root of all the exils growing out of an expanded paper currency.

evils growing out of an expanded paper currency as a prohibitory act of the kind referred to. The annexed statement exhibits the quantity and value of foreign dry goods entered at this port for consumption, for warehouse, and also the withdraw-als from warehouse, during the week ending and including Thursday, Dec. 21, 1854.

\$54,895 56,442 52,462 53,662 9,611 Total..... 939 \$227,072 There has been very little done in dry goods sinc our last. The stason is at an end, and those in wan of supplies buy only sufficient to prevent their cus tomers from going elsewhere. This occasion small transactions in fabrics especially adapted to the mid-winter traffic; but it does not afford material enough for a lengthy review of the business. Hence, we feel ourselves called upon only to say that the stocks still here are moderate—perhaps more so than had been anticipated, but yet they are rather more extensive than parties retaining them wish them to be; and as the demand is, to all intents and purposes, insignificant, prices are unsettled and languid. The spring trade is all that now occupies the attention of our principal operators, who are There has been very little done in dry goods sinc languid. The spring trade is all that now occupies the attention of our principal operators, who are making their arrangements therefor with marked care and foresight. This action cannot fail to have a good effect, and if all parties will but pursue a similar course—which we presume a due regard for their own interests will prompt them to do—we think it will not be difficult to establish the trade on a sound basis, which is due time must give the business a vicer and steady prosperits—which rething

whether high or low, we are willing they should have the full beneat of all they can make out of that large specie importation. It will be seen that in our classification of imports and exports of specie inder the different tariffs, we have taken but two years' operation of the present act—1847 and 1848. The movements of specie since the discovery of gold in California, and the enormous annual production, have been so independent of previous causes.

Retail Prices of Farm Produce at Washing. ton Market.

With the exception of poultry and geese, the prices o family marketing remain at about the same rates. Ap-ples show a slight advance. The supply is light, as large quantities have been kept back by the severe weather. Of vegetables there are but few in market, with prices high. Cattle were a dollar on the hundred pounds dearer Of vegetables there are but few in market, with prices high. Cattle were a dollar on the hundred pounds dearer last Thursday, at the cattle market, and consequently meat shows an increase in the retail prices. Of poultry there is apparently a great quantity in the market; but really the supply is light. The detention of some of the New Jersey freight cars had the effect of keeping back an immense number of turkeys, goese, &c. It is estimated that there is not over two-thirds of a supply in the market. Housekeepers desirous of laying in a sufficiency for Christmas would do well to wait until Monday. Eggs butter, cheese, and fish, keep at the same rates.

and private families may have old ware replated l warranted. Stair rods, plumber's fixtures, tea sets, h covers, trays, cake baskets, spoons and forks, car-s, &c.. plated with gold or silver in the very best man-t, at the Manhattan Plate Co., 267 Bowery.

TO THE UNEMPLOYED.—ON THE RECKIPT OF ONE dollar, post paid, I will send a receipt for making an article, wanted by everybody. A profit of \$5 to \$10 per day can be made. No capital required. It is a genteel business. Address S. S. Chamber, 189 William street.

WARKHOUSE OF WINDSOR PAPER MILLS, NOS.

65 and 67 Nassau street, New York.—The subscribers have commerced manufacturing news and book paper at their new paper works, at Windsor Locks, containing fourteen largest size rag engines and two 84 inch Fourdinier machines (one more to be added), are now ready to receive orders from persons in want of a superior quality of news or book printing paper. These works have been built with great care, embracing all the modern improvements, with a full supply of spring and artesian water, together with never failing power, ensuring a uniform good color to the paper and a regular supply in quantity and quality. The capacity of the two mills to manufacture afteen thousand pounds of paper per day.

CONFECUTION SERY.

TO THE SORER SECOND THOUGHT OF THE PUBtic.—My friends and Patrons—You have been averse
to listen to the words of sober reason, I, therefore,
tried the effect of an extravaganza. I think it is now
quite probable that I shall have gathered an audience.
I want to sell my business; but, before I leave it, I wish
to disabuse you of your vain fears of the past, and warn
you as fregards the future. I have been nearly twentyfonr years a confectioner, and for twenty years of that
time the confectioners of this city served you most
failthfully. In England and in France adulteration had
been practiced to a very great extent. In England, particularly, deleterious substances have been used, that
have called for the interference of (the laws; hence the
prevailing, but, I believe, hitherto unfounded prejudice
entertained in this country. Within the last three or
four years, adulteration by flour has been introduced
here, but not generally. I will respectfully submit to
you, whether you think it citier safe or prudent to proclaim that children have been, cas be, or may be poisoned by the confectioner, without any further comment than a paragraph in the newspaper, that in Boston
two more children had been poisoned by confectionery—
and you still harbor such men among you—it is a libel
on your histoligence. The cow continues to give us milk,
although we slaughter her offspring; but the poor
animal cannot belp herself. I tell you, my friends, that
confectionery, when faithfully made, is whelesome and
beneficial, but, like everything else, its use may be
abused. Is the honor of the jealous man, who is constantly annoying his wife with unfounded suspicion, any
more safe? Or is the man any better served who constantly annoying his wife with unfounded suspicion, any
more safe? Or is the man any better served who constantly annoying his wife with unfounded suspicion, any
more safe? Or is the man any better served who constantly almose his dependants to lisu of instructing
them? If you would be safe, do not countena
